

Agenda for

Nicole Hawkins, PhD, CEDS, Director of Clinical Services at Center for Change

presenting on

“Assessment and Treatment of Body Image Disturbances Across the Weight Spectrum”

May 17, 2018

8:00am-12:00pm

Presentation

8:00am- 12:00pm

- 8:00am
 - Check in and Breakfast
- 8:30am-12:00pm
 - Presentation

The main goal of this presentation is to educate professionals on how to assess and treat body image disturbances across the weight spectrum. The presentation will focus on factors that contribute to negative body image and how therapists can effectively assess the influence of these factors in regards to the patients they treat. This presentation will also address the impact of the media and the diet industry, and how dieting leads to a loss of self-esteem and not necessarily weight. This presentation will provide information on individual and group assessment techniques and interventions for body image disturbances that professionals can take home and use in their daily practices.

Outline

Overview

- a. The seriousness of the illness in America, including stats
- b. Assessment of body image disturbances
- c. Factors that contribute to negative body image
- d. Techniques to improve negative body image

- 2) Body Image 101
 - a. State of Body Image
 - i. Statistics on women
 - ii. Statistics on teens and younger
 - iii. Cost of negative body image
- 3) Assessments
 - a. Treatment
 - i. Individual
 - ii. Group
 - iii. Experiential
- 4) Factors that Impact
 - a. Individual aspects
 - i. Puberty
 - ii. Genetics
 - iii. BMI
 - b. Family Aspects
 - i. Messaging from families
 - ii. Family issues
- 5) 4 cornerstones for promoting a positive body image in teens
 - a. Model healthy behaviors
 - b. Environment
 - c. Change the focus
 - d. Supportive environment
- 6) Impact of peers
 - a. Teased
 - b. Peer interaction
- 7) Societal: media and dieting
 - a. Images in the media
 - b. The diet industry
 - c. Media consumption
 - d. The impact of media
 - e. Dieting
 - i. Statistics
 - f. Intuitive eating
- 8) Treatment interventions
 - a. Group work
 - b. Balance with exercise
 - c. Books, worksheets
- 9) Prevention
 - a. Fatism
 - b. Question the media
 - c. Accept genetics
 - d. Fight the diet downfall
 - e. Emotions
 - f. Befriend your body
 - g. Form identity outside of the body

Format:

Presentation

Date:

May 17, 2018

Time: 8:00am-12:00pm

CE credits for this presentation:

3 CE credit for this 3 hour presentation

Type:

Lecture, interactive with Question and Answer

Training For:

Staff of Hospitals, Medical Centers, Mental Health Clinics: General Medicine Physicians, Psychiatrists, APRN's, Psychologists, Counselors, Substance abuse counselors, Dietitians, Nurses, Mental Health Technicians

Presenters:

Nicole Hawkins, PhD, CEDS

Presentation Title:

"Assessment and Treatment of Body Image Disturbances Across the Weight Spectrum"

Brief Description of Presentation:

The main goal of this presentation is to educate professionals on how to assess and treat body image disturbances across the weight spectrum. The presentation will focus on factors that contribute to negative body image and how therapists can effectively assess the influence of these factors in regards to the patients they treat. This presentation will also address the impact of the media and the diet industry, and how dieting leads to a loss of self-esteem and not necessarily weight. This presentation will provide information on individual and group

assessment techniques and interventions for body image disturbances that professionals can take home and use in their daily practices.

 - f. Befriend your body
 - g. Form identity outside of the body

Learning objectives:

Based on the content of the workshop participants will be able to:

- 1) Describe three techniques to adequately assess body image disturbances in patients with eating disorders.
- 2) Explain factors that contribute to the development on body image disturbances.
- 3) List effective techniques to treat body image disturbances in patients with eating disorders in individual or group setting.

Statement of possible risk:

It is possible that participants, as a byproduct of attending this training, will have an opportunity to look at themselves and apply principles into their own lives, as well as those they treat. Therefore, there is always potential that participants could experience a mild degree of emotional discomfort as they look in the emotional mirror in application of these principles in their own lives.
